

SAYS 

Thinks

*I want to uncover patterns and trends in air travel*

*I need to visualize data related to air traffic*

*analyze the global air transportation Network*

*There must be hidden insights in the air transportation data*

*There might be correlations between air traffic and other factors*

*Visualizing the data will help me understand the network better*

  
**Unlocking Insights into the Global Air Transportation Network with Tableau.**

*They analyze data to identify high-traffic routes, optimize flight schedules*

*complexity of the data but are determined to find meaningful pattern*

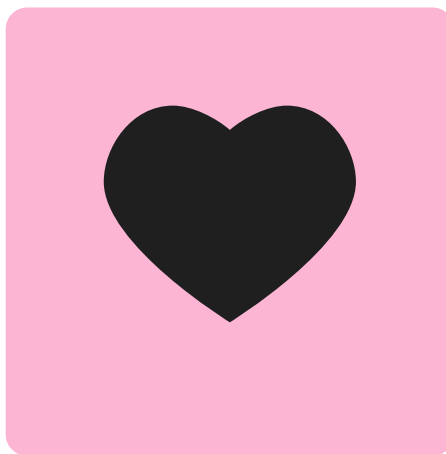

*Curious about the insights that can be uncovered*

*Excited to explore the air transportation network*

*Searches for relevant air transportation datasets*

*Imports the data into Tableau for analysis*
